

GRN139925 Activates Telomerase:
Neonatal Keratinocytes (HEKn-P, PD8)

Fig. 1

GRN139925 Activates Telomerase:
Aging Adult Keratinocytes (HEKa18, PD34)

Fig. 2

GRN139925 Activates Telomerase:
Neonatal Fibroblasts (HDFn, PD10)

GRN139925

GRN139925 Accelerates Wound Healing
in Late Passage Keratinocytes (HEKn-P, PD40)

CONTROL

Day 1

Day 2

Day 3

Day 4

GRN139925.06 25µg/ml

Fig. 7

GRN139925 Restores Wound Healing Capacity of Aging Keratinocytes (HEKa18, PD34)

Fig. 8

Acceleration of Wound Healing by GRN139925 in Aging KCs
Is Both Migration- & Proliferation-dependent

Fig. 9

Acceleration of Wound Healing by GRN139925
in Aging Keratinocytes is Telomerase-Mediated

Fig. 10

Both GRN139925 and AdhTERT
Protect Adult Keratinocytes from UV-induced Cell Death

Short term UV-Protection upon Telomerase Activation (Exp.1)
